Subject: Comment on Pike Hill Mine access roads
Date: Wednesday, July 20, 2022 3:48:02 PM

Hello Darriel,

Is this the way to make an official public comment?

If so I'd like to remind folks the road to the smith mine depicted as a public road is almost certainly an error. I have maps and surveys that show the actual public road actually veers off and is a thru road to maplewood.

As Ed knows, I am the owner of the land surrounding Smith Mine (although I do not own the subsurface or mineral rights).

So my comment is I'd like the title work you folks do be particularly careful when it comes to road location and distinguish between public and private roads.
